

Science snapshot 2018–19

Department of Biodiversity,
Conservation and Attractions

120
science projects

116 science partnerships

80
tertiary student projects

425
publications

10,198
hours logged
by Herbarium
volunteers

10,862
specimens added to the
Herbarium collection

423
plant names
added to WA Census

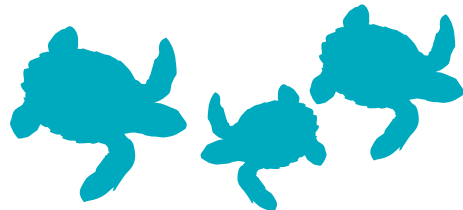

47
western swamp tortoises
translocated

148 white-bellied
and orange-bellied
frogs translocated
east of Margaret River

20 rehabilitated
loggerhead turtles released
back into the wild

152 groundwater
bores monitored

1,200 km²
of hydrological information interpreted
from airborne geophysics

68 wetlands surveyed
for waterbirds

40
stakeholder groups involved in
recovery teams

264
data search requests
for threatened fauna

140
hare-wallabies
translocated to
Dirk Hartog Island

92,923
fish counted during marine
monitoring

13,000 km²
of marine benthic habitat
mapped in Shark Bay

50
years of science at Manjimup
Research Centre

1,400
tissue cultures of 48 plant
species in the
Kings Park collection
