

Form 7 – Application for Permit

Swan and Canning Rivers Management Regulations 2007 – Part 4 Permits

Important information for applicants

1. The Department of Biodiversity, Conservation and Attractions (the Department) is responsible for granting permits under regulation 29 of the Swan and Canning Rivers Management Regulations 2007 (SCRM Regulations).
2. Works, acts or activities which require a permit to be granted are prescribed under division 2 of the Swan and Canning Rivers Management Regulations 2007.
3. The Department may issue, or refuse to issue, a permit to carry out an activity for which an authorisation is required under the SCRM Regulations.
4. The Department may impose conditions or restrictions on a permit (regulation 31(2)).
5. The holder of a permit who contravenes a condition or restriction of the permit commits an offence (regulation 31(3)). A penalty of \$5,000 applies.
6. If a permit holder supplies false or misleading information in the application for a permit or contravenes a condition or restriction of the permit, the Department may revoke or suspend the permit (regulation 33(2)). The Department may immediately suspend a permit if it considers it necessary because there is an immediate and serious risk of harm to the ecological and community benefits of the Riverpark or Development Control Area (regulation 35 (1)).
7. It is the responsibility of the applicant to obtain any approvals or licences required by other authorities to carry out the proposed activity.
8. Applications made under regulation 27 for emergency works may be made orally (telephone, radio or video conference) or in writing (e-mail). An approved permit may be issued orally or in writing. The Department will issue a written copy as soon as practicable, having given a permit orally.
9. All owner(s) of the subject land must consent to this application being made. This application form must be signed by the owner(s) of the subject land. In relation to Crown land, *the Swan and Canning Rivers Management Act 2006* defines the owner as the management body responsible for the administration of that land.
10. The application is not considered valid without all landowner(s) signatures.
11. Where a permit application relates to works, acts or activities in the River Reserve, the signature of the Swan River Trust will be required as the owner of the River Reserve. The Department can arrange for the form to be signed.
12. The application is not considered valid without adequate plans and sufficient supporting information required for assessment.
13. The Department may require the submission of additional information before determining an application.
14. Department officers will assess the application with reference to the *Swan and Canning Rivers Management Act 2006*, *Swan and Canning Rivers Management Regulations 2007*, policies and any other documents considered relevant. These documents and maps of the Development Control Area can be found at: <https://www.dpaw.wa.gov.au/management/swan-canning-riverpark/planning-development-and-permits>
