Current Scientific or Other Prescribed Purposes Licence No.	S.....	Expiry	/ /
--	---------------	---------------	------------

OR

<input type="checkbox"/> Scientific or Other Prescribed Purposes Licence application pending or submitted concurrently

A Regulation 4 Authority is a written notice which authorises a person to undertake an activity that would, but for that notice, be unlawful under the *Conservation and Land Management Regulation 2002*. Taking flora is one such activity. Other activities include (but are not limited to):

- Camping
- Lighting fires
- Erecting or placing structures
- Unauthorised clearing
- Using a firearm
- Taking water
- Accessing areas through locked gates
- Removing soil/sediment (sampling)
- Driving or using vehicles other than on a road
- Launching or landing aircraft

The above activities or others from within the regulations must be stated if they form part of the activities you propose to undertake. If you are unclear if your activities require authority, please contact the Wildlife Licensing Section to discuss further.

For each of the locations to which this application relates, page 2 of this application must be completed.

CALM land/water locations to which application relates:

Location Name	
DPaW District/Region	
Purpose of activity	
Species to be collected	
Material (parts) and quantity to be collected	
Where specimens will be lodged	
Specific field dates	
Other participants <small>(must hold own SOPP licence or be under direct supervision)</small>	
Other relevant information	

Required documents:

- Proposal detailing your research/activity including:
 - Justification for taking from this CALM land/water location (rather than other Crown/private land); and
 - other regulations that may be relevant to your activities.
- Map of proposed site/s within CALM land/water location.

Please attach any other information relevant to this application.
