CO301

Wildlife Conservation Act 1950

### Wildlife Conservation (Rare Flora) Notice 2017

Made by the Minister for Environment under section 23F(2) of the Act.

#### 1. Citation

This notice may be cited as the *Wildlife Conservation (Rare Flora) Notice 2017*.

#### 2. Interpretation

In this notice—

“**extant**” means known to be living in a wild state;

“**protected flora**” means any flora belonging to the classes of flora declared by the Minister under section 6 of the Act to be protected flora by notice published in the *Gazette* 9 October 1987, at p. 3855;

“**taxon**” includes any taxon that is described by a genus name and any other name or description.

Note: The plural form of “taxon” is “taxa”.

#### 3. Declaration of rare flora

Subject to clause 4, protected flora—

- (a) specified in Schedule 1, being taxa that are extant and considered likely to become extinct or rare, as critically endangered flora, and therefore in need of special protection;
- (b) specified in Schedule 2, being taxa that are extant and considered likely to become extinct or rare, as endangered flora, and therefore in need of special protection;
- (c) specified in Schedule 3, being taxa that are extant and considered likely to become extinct or rare, as vulnerable flora, and therefore in need of special protection; and
- (d) specified in Schedule 4, being taxa that are presumed to be extinct in the wild and therefore in need of special protection,

are declared to be rare flora for the purposes of section 23F of the Act throughout the State.

#### 4. Application

Clause 3 does not apply to those plants of a taxon of protected flora specified in Schedule 1, 2, 3 or 4 that have been planted for any purpose other than such plants that have been planted for the purpose of conservation of that taxon and in accordance with approval given by the Director General.

#### 5. Revocation

The *Wildlife Conservation (Rare Flora) Notice 2016* is revoked.

### Schedule 1 — Flora that are considered likely to become extinct or rare, as critically endangered flora

[cl. 3(a)]

#### Division 1 — Spermatophyta (flowering plants, conifers and cycads)

### Schedule 4 — Flora presumed to be extinct

[cl. 3(d)]

#### Spermatophyta (flowering plants, conifers and cycads)

1. *Acacia kingiana*
2. *Acacia prismifolia*
3. *Coleanthera virgata*
4. *Conospermum caeruleum* subsp. *contortum*
5. *Frankenia decurrens*
6. *Lepidium drummondii*
7. *Leptomeria dielsiana*
8. *Leucopogon cryptanthus*
9. *Myriocephalus nudus*
10. *Picris compacta*
11. *Ptilotus caespitosus*
12. *Scholtzia* sp. Bickley (W.H. Loaring s.n. PERTH 06165184)
13. *Taraxacum cygnorum*
14. *Tetratheca fasciculata*
15. *Thomasia gardneri*

STEPHEN DAWSON, Minister for Environment.
